Applicant's reply filed on 10-26-2007 to the 9-27/2007 Restriction/Election office action was not considered fully responsive, as per the 12-19-2007 further office action (as summarized below).

Applicant's reply filed on 26 October 2007 is not fully responsive to the prior Office Action because of the following omission(s) or matter(s): The Requirement for Restriction/Election sent 27 September 2007 required Applicant to elect, in addition to a single group from among Groups 1-IV:

a single disclosed species of hydrocarbyl functional organopolysiloxane from among those listed in Claims 1 and 3.

By single disclosed species, it is meant that Applicant elect one compound, defining each and every variable present on the compound. For example, if Applicant elects a compound of Claim 1, the variables of R, R1, R2 and a must be defined, the definition being limited to a single capticit value. Alternatively, if Applicant elects a compound of Claim 3, the variable R must be limited to a single and specific alkyl, eyeloxikyl, alkenyl, aralkyl, or anyl value, as per the claim. If present, x, y, z, m and n must be assigned a single value. In other words, Applicant must elect a single compound, and not a group of compounds wherein the R1 group is defined and all other values left generic, as Applicant did in the response.

In response to the 12-19-2007 office action, Applicant elects the compound of Claim 1 where R = methyl, $R^1 = -CH_2CH_2CH_2CH_2CH_2CH_2OH$, (which implies $R^2 = -CH_2CH_2CH_2$ -), and a = 1.

Claims 1-7, 9, 11 and 12 read on this election. Applicant traverses this election for the reasons stated in its 10-26-2007 reply.

The present response is being submitted within the one-month shortened statutory period for response to the outstanding Office Action. Applicant authorizes the USPTO to charge deposit account 04-1520 for any fees that should be necessary to maintain the pendency of the application.

Respectfully submitted,
